It is with the heaviest of hearts that we prepare this statement. The Cuban American Bar Association (CABA) stands in unwavering solidarity with the people of Israel. CABA unequivocally condemns the recent terrorist attacks launched by Hamas, which have resulted in the loss of thousands of innocent lives. The taking of hostages and murdering of innocent civilians, from the most vulnerable groups, including women, elderly, and children, is unconscionable, horrifying, and abhorrent. CABA is outraged and deeply saddened by the violent terrorism.

Further, it is our understanding that the Cuban regime has welcomed Hamas leaders, supported their causes, and most recently, believes the attack in Israel this weekend was warranted. No geopolitical conflict justifies this despicable act of terrorism. We urge the United Nations Security Council and the nations that search for support to condemn Hamas.

As of today, Hamas has stolen thousands of innocent lives. May their memory be a blessing. Our hearts and prayers go out to the people of Israel, Palestinian civilians, and all those affected by this conflict. We hope any surviving hostages are released swiftly and safely, and the charged conflict does not spread to other countries. CABA remains committed to promoting justice, tolerance, and respect for human rights, both in our local communities and on the global stage. Please continue to support and show empathy for Israel and all those affected.
